Attention Mathew Collins

Dear Mathew

I would like to take this opportunity to express my thanks and gratitude for the tremendous effort you and your staff have put in over the past year on our behalf. The satisfactory result in being granted our US Visas could not have been achieved without your in depth expertise and knowledge of immigration procedures.

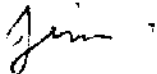

Henry Liebman, the specialist immigration lawyer who is your associate in Seattle, also deserves great credit for the tenacity with which he pursued the case. Henry became so involved that one could believe that this was the only case he was dealing with. His business advice and attention to every detail were invaluable.

From initial interview to receipt of visa the integrity of your partnership inspired the trust and confidence which is so essential between client and consultant.

I would unreservedly recommend yourselves and Henry Liebman to any prospective clients and would be very happy to speak with them if they wish.

I wish you and Henry every success in the future and will keep you posted as to our progress.

Kind Regards

Jim Keellings
